Atenco

MEXICO

Why are we protesting today?

The disappearance of 43 students and the confirmed torture and assassination of 3 of them from a very poor rural public school (near Acapulco), exactly one month ago, ordered by the corrupt mayor (now fugitive) that is linked to drug trafficking. (See attached article in *The New Yorker*)

While *Time Magazine* lied to the American public reporting that the Mexican President Peña Nieto is the “savior of Mexico,” the situation in Mexico cannot be worse and the politicians themselves are the ones who are involved in corruption and organized crime, and causing an abysmal income inequality.

What does that have to do with US people, specifically in NYC ?

Many of the Mexican workers who you see working in New York delis, restaurants and other services are fleeing the organized crime, and all of them are escaping from a tremendous poverty caused by the policies of social inequality imposed by Wall Street and the World Bank. 11 million Mexican immigrants live and work in the US due to an economic system that creates the richest man in the world (Carlos Slim) at the expense of millions of poor people

How can you help?

DO NOT use banks' services like HSBC which are Mexican drug money launderers, and let them know that you do not want to be client while their hands are full of blood with crimes like the massacre of 43 students.

DO NOT PLAN YOUR VACATION IN MEXICO, NO MATTER HOW CHEAP, BUT ALSO LET THE MINISTRY OF TOURISM KNOW WHY. WRITE A LETTER to the Minister of Tourism of Mexico and tell her you're not going to travel to Mexico until the crimes of the 43 students are clarified in Guerrero.

Atenco

MEXICO

Why are we protesting today?

Would you be willing to land in an airport that cost blood, the sexual torture of Atenco women, peasants unjustly jailed for five years and now, fake land owners voting and land owners being coerced to sign so that the richest man in the world, Mexican Tycoon Carlos Slim can make more millions and corrupt Mexican politicians can get richer?

While *Time Magazine* lied to the American public reporting that the Mexican President Peña Nieto is the “savior of Mexico,” the situation in Mexico cannot be worse and the politicians themselves are the ones who are involved in corruption and organized crime, and causing an abysmal income inequality.

What does that airport have to do with US people, specifically in NYC ?

After Hurricane Sandy, you know what climate change means. The planet on which you live is being destroyed by unbridled corporate greed imposed by Wall Street and the World Bank. Nobody wants this airport that has caused so much pain except Slim, the richest man in the world, and his architects and businessmen.

How can you help?

Send a letter to the architects (see attached letter sample and addresses)

O NOT PLAN YOUR VACATION IN MEXICO, NO MATTER HOW CHEAP, BUT ALSO LET THE MINISTRY OF TOURISM KNOW WHY.

WRITE A LETTER to the Minister of Tourism of Mexico and tell her you're not going to land in an airport that has caused the raping of women of Atenco and unjust prison for men.
